I Worship You (Wenstrom)

I'm looking back at all You've done for me
Its seems to me that I never take the time
Through all my hours of heartbreak and despair
You showed me how much you really care
When all seemed lost oh You were there

There's nothing like the love You give to me
It lifts me up and takes me past the stars
So far beyond I'd ever thought I'd go
Who am I and what do I know
This pile of dust the wind will blow

My Lord, my God I worship You
For who You are and what You do
My Lord, my God I worship You
For who You are and what You do
You're everything I want to be
There's so much more that I can't see

I worship You, I worship You
You're everything I want to be
There's so much more that I can't see

I'm finding out You're more than just a name
It seems to me there's little that I know
You've never changed Your way through all the years
And Your hand wipes away my tears
There's hope where once there was fears

My Lord, my God I worship You
For who You are and what You do
My Lord, my God I worship You
For who You are and what You do
You're everything I want to be
There's so much more that I can't see

I worship You, I worship You
You're everything I want to be
There's so much more that I can't see
