Don't Love the World (Wenstrom)

All of God's children, I'm talking to you
This world we live in, is deceived, its true
Everything you see, and everyone you know
Belongs to Satan's kingdom, its evil power will grow

Every human affair, every culture and education
Every godless government, every conflict and world religion
Is anti-Christ my friend

Don't love the world, nor the things of the world
If anyone loves the world, the love for the Father is not in him
Don't love the world, nor the things of the world
If anyone loves the world, the love for the Father is not in him

All of God's children, please listen to me
The world's been blinded so they can't see
Lusting for the flesh, wanting even more possessions
Living their lives, pursuing vain obsessions

The devil's reign will end, it's in its final hour
For the Son will come and rule this earth with power
So, don't love this world

Don't love the world, nor the things of the world
If anyone loves the world, the love for the Father is not in him
Don't love the world, nor the things of the world
If anyone loves the world, the love for the Father is not in him
